

EDUCATION

Year	Degree/Exam	Institute	CGPA/Marks
2028	4YRS B.S	IIT Kharagpur	8.49 / 10
2024	CBSE	Jawahar Navodaya Vidyalaya, Bangalore Urban	86.4%
2022	CBSE	Jawahar navodaya vidyalaya, Bhadrak	82.2%

AWARDS AND ACHIEVEMENTS

- Secured the **Gold Medal** in the prestigious **Open IIT Data Analyst competition 2026**, finishing first among top analytical teams across the campus
- Selected as a **Dakshana Scholar**, a highly prestigious **national talent scholarship** program providing intensive academic training to gifted students
- Awarded the prestigious **Odisha State Scholarship (Bruti)** following exceptional **academic performance** in the state-level talent search assessment
- Cleared the highly competitive **Jawahar Navodaya Vidyalaya Selection Test**, securing academic admission among the **top students** in the district

INTERNSHIPS

Data Analyst Intern | Analytics Career Connect | Remote [May '26 - Jun '26]
Leveraged SQL, Excel, and Power BI to analyze business datasets and deliver data-driven reporting solutions

- Formulated complex **SQL queries** to extract and structure large **business datasets**, ensuring high **data accuracy** for downstream **analytical reporting**
- Designed highly interactive **Power BI** and **MS Excel dashboards** to clearly visualize **key performance metrics** and streamline daily **reporting workflows**
- Conducted comprehensive **exploratory data analysis** to efficiently uncover actionable **business trends** and optimize the internal **reporting workflows**

JEE Mentor | Dakshana Alumni Network (DAAN) | Remote [Jun '25 - Jul '25]
Delivered intensive quantitative mentorship and strategic exam guidance to high-potential engineering aspirants

- Guided high-potential scholars through complex **mathematical and analytical concepts** to significantly elevate their core **problem-solving metrics**
- Evaluated comprehensive **student performance metrics** through rigorous testing to identify core **learning gaps** and design highly **targeted strategies**
- Simplified rigorous **engineering syllabus topics** into accessible **learning frameworks** to enhance **critical thinking** and accelerate their workflow

PROJECTS

Zepto Inventory Data Analysis | Self Project [May '26]
Executed end-to-end SQL data analysis on Zepto e-commerce inventory datasets using advanced PostgreSQL

- Engineered robust **relational database schemas** utilizing **PostgreSQL** to efficiently manage and query large-scale **e-commerce inventory data models**
- Formulated advanced **SQL queries** leveraging complex **joins, window functions, and aggregations** to extract critical **business performance analytics**
- Conducted comprehensive **inventory trend analysis** to identify underlying **stock discrepancies** and optimize core **e-commerce supply chain operations**

Zomato Data Analysis | Self Project [June '26]
Conducted exploratory data analysis on Zomato datasets to identify restaurant pricing and rating trends

- Engineered a **robust data pipeline** utilizing **Pandas** to clean complex restaurant datasets, effectively resolving **missing values** and structural errors
- Created comprehensive **data visualizations** utilizing **Matplotlib** and **Seaborn** to uncover actionable trends in **customer preferences** and overall dining costs
- Performed advanced **statistical analysis** to identify key correlations between **geographical locations**, average **dining costs**, and overall **customer satisfaction**

Statistical Inference Project | Term Project | IIT Kharagpur [Spring '26]
Conducted advanced statistical inference modeling under Prof. Anikit Biswas to evaluate complex datasets

- Formulated robust **hypothesis testing frameworks** utilizing **Likelihood Ratio Tests** and the **Neyman-Pearson Lemma** to evaluate probability models
- Evaluated **parameter estimation efficiency** by applying the **Cramr-Rao Lower Bound** and **Karlin-Rubin Theorem** to ensure statistically valid models
- Programmed comprehensive **statistical models** using advanced **computational tools** to execute **theoretical derivations** and visualize core **data metrics**

POSITIONS OF RESPONSIBILITY

Invigilator &Coordinator | Dakshana Alumni Network [Dec '25]
Managed the execution of **national talent selection examinations**, ensuring a streamlined testing environment for identifying **gifted scholars**

- Conducted the **Dakshana Scholar Test** at JNV Jajpur as an **invigilator**, overseeing **exam logistics** and ensuring **secure testing** for candidates
- Managed **student identity verification** and registration, ensuring strict compliance with **testing protocols** to maintain **examination integrity**
- Coordinated with **administrative staff** to facilitate smooth **crowd control** and resolve real-time queries during the **evaluation process**

SKILLS AND EXPERTISE

Core Competencies: Machine Learning | Deep Learning | Statistical Inference | Hypothesis Testing | Parameter Estimation | Probability
Languages and Libraries: C | C++ | Python | SQL | NumPy | Pandas | Matplotlib | Seaborn | Scikit-learn | TensorFlow | PyTorch | Streamlit
Software/Tools: MS Excel | Power BI | Jupyter Notebook | Visual Studio Code | Antigravity | Git/GitHub | My SQL Workbench
Soft Skills: Analytical Problem-Solving | Quantitative Reasoning | Communication | Adaptability | Time Management | Teamwork

COURSEWORK INFORMATION

Programming and Data Structures	Probability and Statistics	Linear Algebra
Statistical Inference	Introduction to Entrepreneurship	Introduction to AI/ML
Machine Learning	Deep Learning	Advanced Calculus

EXTRA CURRICULAR ACTIVITIES

- Represented the school team in the highly competitive NVS Cluster Meet for Kho-Kho, successfully advancing to the regional-level championships
- Actively engaged in athletics, swimming, and badminton for physical conditioning, while pursuing personal passions for singing and reading books
